Resort work for the creative industry

# Mission

## Inspiring business resorts for the creative industry.

How we do it?

Imagine a creative venue nestled in nature, where business and a non-business atmosphere seamlessly blend together. At Casa Portufornia, our mission is to create an enjoyable and supportive space for professionals in the creative industry to work on their projects while embracing the benefits of a relaxing resort environment.

Each of our houses provides a unique setting that inspires creativity and supports a sense of togetherness. With inspiring surroundings, fresh air, and a strong commitment to optimal nutrition and well-being, our space is designed to enhance productivity.

Overall, we aim to create an inspiring environment that creates a harmonious relationship with nature, where people can work, learn, improve, and connect with one another, all while enjoying the beauty of nature and the advantages of a retreat-like setting.

# The House

## Inspiring venues nestled in nature.

Casa Portufornia No.1 is an iconic Mid-Century Villa from the 1960s. It was a forgotten gem in the scenic Colares region. Surrounded by the enchanting hills of Sintra - a UNESCO protected site - and the powerful waves of Praia Grande, this architectural masterpiece, crafted by renowned architect Manuel Tainha, stimulates the mind and reduces stress. It is conveniently located just a 35-minute drive from Lisbon Airport.

The villa spans across two levels, boasting a spacious 500 sqm of living & working space and is set within 5000 sqm of verdant garden land, adorned with a stunning hill view, pine wood and a grand sixties-inspired pool. The villa's design harmoniously blends work and play, creating an ambiance that nurtures both productivity and happiness for its members and guests.

# The House

Opening in Summer 2024, CPF No.1 will offer:

# The House

Nature boosts our productivity, whether it is through access to our own permaculture fields or a sunset surf, a ideation walk in the forest, an afternoon on the numerous mountain biking trails with breathtaking scenery, or a creative sprint on a sailboat. All of these are here to have an impact on the projects you are working on.

# Hosts
